

1978 DC Voting Rights Amendment Vote

The 1978 DC Voting Rights Amendment was for full federal voting representation for the District, as if the District were a state. In addition, it would have given the District a vote on amendments to the U.S. Constitution (described under Article V of the U.S. Constitution) and would have repealed the 23rd amendment, as it would no longer have been necessary. The amendment was jointly passed in both the House and the Senate, however the required number of state ratifications was never achieved.
